

# THE BUZZ ABOUT BEES

## with Karen Phillips

**April 29, 2019**  
**1.30-2.30pm**

**Library Lecture**  
**College of Adaptive Arts**  
\$10  
(scholarships available)

We've all seen bees, flying around and buzzing from flower to flower. And we know honey comes from bees. But what happens in between the flower and the honey pot?

Please welcome Karen Phillips from the Santa Clara County Beekeepers Guild. She will be giving us a behind the scenes look at a day in the life of a bee. We'll look at a beehive, learn what a beekeeper does, and maybe sample some honey. \*

Please RSVP to [katie@collegeofadaptivearts.org](mailto:katie@collegeofadaptivearts.org) by Thursday, April 25, 2019.

\*Bees will not be flying loose in the classroom. Students with bee allergies should be accompanied by their family/caregiver.
